GUIDELINES REGARDING ALCOHOLIC BEVERAGES
Baggins End Domes and Tri-Cooperatives

Consumption by residents or guests who are 21 years or older:

- Consumption and storage of alcoholic beverages is allowed in private space, which is defined as the residence interior, enclosed courtyards, and fenced private yards and patios. Private space does not include such areas as exposed porches and balconies or common outdoor areas. This definition can be further limited by any sanctions from Student Judicial Affairs or the Center for Student Involvement (CSI) relating to alcohol consumption in the house.

- Residents and guests must comply with State laws and University rules, regulations, and policies regarding the consumption and service of alcoholic beverages on University property to guests.

Closed event at property or house that includes serving alcohol:

- An Event Request must be submitted a minimum of 21 business days prior to date of planned event. See Event Request process for details.

- The event coordinator must be a current resident of the Baggins End Domes or Tri-Cooperatives and at least 21 years of age. This individual has recognized authority or responsibility for the group and assumes the role as event coordinator. This person shall be responsible for compliance with applicable state laws, campus policies and procedures, and University policies. Violation of campus policies and procedures may result in cancellation of the event or future events and/or appropriate University disciplinary action. Attendance at the event and during the entire period alcohol is served is required of the event coordinator.

- An Event Request that will include the serving of alcohol will be approved only for **closed events** (advertised to an exclusive group of people). Therefore, the event coordinator will have to demonstrate how this condition will be met for the proposed event. A guest list is one way to establish limited attendance. Note that fire code capacity will dictate the maximum number of invited guests. Groups are not to advertise their event via flyers, posters, newspaper ads, or through any other public media, i.e. "facebook" ads.

- Event Requests that include alcoholic beverages should provide for the service of beer and wine which, as refreshments, are incidental to the event. Non-alcoholic beverages and food must also be provided or available during the entire period alcohol is served. The event will be reviewed to determine the emphasis placed on alcohol. The type of beverage, event, service, and time must be coordinated to discourage the excessive use of alcohol, to prevent over- indulgence, and to meet legal requirements. Appropriate controls will be imposed to guarantee such coordination, including requirements for bartenders or Aggie Hosts. Checking identification for proof of legal age is required unless the group is limited to persons at least 21 years of age. Acceptable identification consists of a valid driver's license with photo or other ID issued to non-drivers by the Department of Motor Vehicles. The burden of proof for showing legal age is placed upon the person desiring alcohol service. No service will be provided unless clear evidence of legal age is presented. UC Davis Identification is NOT an acceptable form of identification.

Open event: Defined as one that is advertised via flyers, texts, and social media, and the number of participants cannot be anticipated.

Additional Guidelines regarding alcohol:

The selling, furnishing, or giving of an alcoholic beverage to any <u>person under 21 years</u> of age or any <u>obviously intoxicated person</u> is prohibited by law, whether it is in a public or private space.

<u>Excessive Amounts of Alcohol or Common Source</u> - of special concern is the lack of control that results from consuming large quantities of alcohol. Both excessive amounts of alcohol and common sources are prohibited.

- Serving of alcohol from a common source or in bulk quantities is prohibited. Common source is defined as but not limited to the following examples: kegs, pony kegs, punch bowls, wine boxes, commercial dispensers, or the amount of alcohol equivalent to a common source alcohol beverage container, whether empty or full. Possession of bulk alcoholic beverages, that is, amounts for storage or use that is excessive under the circumstances for personal use is prohibited. Devices used or intended for the rapid consumption of alcoholic beverages are prohibited. Cases of beer and other beverages with an equivalent amount of alcoholic content in any form of container are considered bulk alcohol. Excessive amounts are defined as supplies of alcohol which are excessive for the number present or which are distributed indiscriminately. Examples of excessive amounts include more cases of beer than reasonable for the number of people present or large mixtures of "punch" or the presence of "punch buckets". The determination of what is excessive will be made by the individual reporting the incident.

- Common source containers, whether full or empty, are not permitted. This includes storage units, outdoor landscape areas or visible within vehicles. Root beer or "near beer" kegs, which are very similar in appearance to alcoholic beer kegs, are not allowed.

- Residents may not sell alcoholic beverages without the appropriate license issued by the State Department of Alcohol Beverage Control and a UC Davis Permit to Serve Alcoholic Beverages. Exchanging any consideration for alcoholic beverage service constitutes a sale. "Consideration" this includes, but it not limited to money, tickets, tokens, or chits which have been issued in exchange for money or anything else of value.
