Fall Pest Proofing

Submitted by Linnea Hall

Sources: Michael F Potter, extension entomologist, University of Kentucky, College of Agriculture. AND UC Davis Student Housing Policies Manual excerpts).

As fall approaches, so does colder weather. The outdoor pests will be looking for warm places to live. Prevent them from finding your warm home for the winter. The following will be a guide, such as in autumn when we see insects and rodents making their way in, in search of "overwintering" sites.

According to a poll 93% of householders express concern over finding pests within their home. More than half indicated that a *single* cockroach, or spider would prompt them to take pest-proofing steps. Despite their "high-profile" presence within the home, most pests encountered indoors have either flown or crawled in from outside.

To limit unwanted intrusions by insects and rodents, deny them entry. Taking steps to block their entry before they end up inside can greatly

reduce the chances of future sightings. Prevent ants, spiders, mice, and other pests from becoming a problem this winter by pest-proofing your home. Outlined below are useful tips for pest-proofing a home:

- Keep you patio or balcony clear. Any furniture designed for indoor use may not be stored on patios or balconies as they are inviting to burrowing animals. Cardboard boxes, wood, newspaper, books, plastic bags or anything that would attract pests or rodents also may not be stored on patios or balconies.
- Take trash out regularly to the dumpsters. Do not leave trash bags outside front doors, entry ways, or patio/balconies as this will attract pests.

- Keep the interior of the apartment in good condition. There are issues related to roaches and other pests associated with unclean living conditions. As stated in the Parks Student Handbook: "residents are responsible for maintaining the interior and exterior of the apartment in a clean, safe condition."
- Remove excess outdoor items from your property, places where they can burrow, or create nests.
- Keep shrubbery trimmed away from foundation and remove weeds and overgrowth around your yard.
- Keep potting soil and gardening tools in sealed containers.

*Continued on Page 2

Fall Pest Proofing

Continued From Page 1

- Remove bird and wildlife feeders when these animals are not feeding
- Keep patio fence doors closed and locked to keep the park's wildlife from entering the patio area.
- A compressed air can, at the base of exterior doors, entrances, and around foundation of windows, sliding door tracks, will remove crumbs, lint, and dust that emit smells which attract winter pests.
- Check thresholds at the base of exterior entry doors for light filtering under the doors. Gaps of 1/16 inch or less will permit entry of insects and spiders. 1/4 inch gaps (the diameter of a pencil) are large enough for entry of mice. 1/2 inch gaps are adequate for rats. Pay particular attention to the bottom corners, as this is often where rodents and insects enter.
- Cockroaches, mice, ants, and bees are the most common targets. If roaches are present,

treatment is mandatory and should be scheduled as soon as possible.

If you've already noticed a pest infestation or signs there may be a pest present, you must report pests to the park office, and the park office will arrange for legal entry on the next available inspection date. Let's make this a clean, safe, and pest-free winter! By taking a few quick, easy and early preventative steps now, there will be an increased chance for a worry free (and pest free) winter.

Hero in the Parks

Submitted by Casey Fawcett

Hello Residents,
A few weeks back a resident; Cesar Casillas was returning home when a man on a bike rode past him and waved. Cesar waved back and then noticed that the man was riding a Solano Park child's bike. He informed the man that he should remove himself from the bike as it belonged to a child. The man put an up a brief argument and then fled from the bike across the UCD parking lot.

I want to take this moment to

thank Cesar Casillas, he represents the power of neighborhood watch in the community. When I heard this story I was taken aback by Cesar's bravery and willingness to confront the situation. Now the young boy can continue to enjoy his bike every evening (for all who have met the boy know this is the case).

The parks are generally safe and wonderful places to be but every once in a while we have problems with theft. If you see someone suspicious in or around the park do your part and call the UCD Police

department. If all residents work together, we will make the parks a much safer place to be.

Here is the UCD Police Contact Information:

Emergency Contact Numbers:

911 - is the primary emergency number for our campus from any phone.

530-752-1230 - is an alternate from any phone.

Orchard Park Car Wash

Submitted by: Sue Franck

Dear Orchard and Solano Park community members:

We regret that recently we had to discontinue the car wash located at the Orchard Park

Apartments office building. The drain in the parking area goes into the storm drain system, which cannot accept car wash byproducts (oil, gasoline, solvents, soaps,

etc.). There are several commercial car washes in town. They are properly licensed and regulated for this task. Thank you.

Research Study

Submitted by: Sue Franck

Pregnant women are needed for a nutrition study. USDA-Western Human Nutrition Research Center invites pregnant women (greater than 18 years of age and less than 20 weeks gestation) to participate in a research study. This study will investigate if the current level of vitamin D supple-

mentation during pregnancy is adequate to maintain maternal health and immune function. Women with low vitamin D intake and low sun exposure are eligible.

Visits are at the USDA-Western Human Nutrition Research Center on the UC Davis campus or the UC

Davis Ob/Gyn clinics in Sacramento. Blood is collected for study purposes at three times during pregnancy (16-20 weeks, 24-28 weeks, 36 weeks gestation). Participants will be given prenatal multi-vitamins and monetary compensation of \$100.

The Moon Festival

Submitted by: Tzu-Chi Kuo

Sources: <http://www.moonfestival.org>, <http://chineseculture.about.com>, <http://en.wikipedia.org> <http://mandarin.about.com>

The Moon Festival, also known as the Mid-Autumn Festival (or Zhongqiu Festival), is on the 15th of the 8th month of Lunar Calendar. This year, it will be on September 12. It is one of the three big festivals in Chinese Culture (the other two are Chinese New Year and Dragon Boat Festival.) People usually celebrate the great harvest during this time. The reason why it is also called the Moon Festival is because the 15th of the month in the lunar calendar is the full moon. And the shape of the full moon, round, which symbolizes the meaning of "complete" in Chinese Culture, has encouraged families and friends to reunite during this time.

For this reason, the Moon

Festival is always celebrated after twilight when the moon comes out. There are a couple of stories behind the festival which all are relevant to the moon. The most popular one is about Lady Chang E. According to the Chinese ancient fairy tale, Lady Chang E wanted to rescue her people from her husband Houyi's tyranny, thus she took his elixir and flew away to the moon on the date of the Moon Festival. When you look up at the moon on the Moon Festival you will probably be able to see her dancing in the moon.

Since the Moon Festival usually falls on the harvest season, the food has always been a big sensation for it. Besides having the great feast from the huge harvest, moon cake is one of the biggest things for the Moon Festival. It is a

kind of pastry stuffed with different fillings such as egg yolk, lotus seed paste, red bean paste, coconut, walnuts, or dates. Chinese characters representing longevity or harmony are carved onto the tops of the moon cakes.

Every year in San Francisco's Chinatown, there is always a big celebration for the Moon Festival. This year, they are going to celebrate it on the weekend before the Moon Festival (9/10-9/11). However if you won't be able to participate in it, we will have a big celebration in the Orchard Park as well. We are going to make moon cakes and have a barbecue to celebrate this fruitful festival together. Hope to see you there!

“The Whole Enchilada” - The Best Events are the Ones Inspired by You!

Submitted by: **Kyana Taillon**

My favorite part about being one of the Resident Assistants for Orchard Park is our many monthly programs. It's the job of the RAs to come up with ideas for events that will promote a sense of community for our diverse group of residents and friends, and **we get a number of ideas for programming directly from you!**

For example, I decided to plan an obstacle course day after a group of young residents, and I brainstormed ideas about what would be fun to do together during the summer. In August, we scheduled a marshmallow roast, also inspired by the kids who wanted to feel like they were camping. One parent noted that her kids were surely to remember that experience for years to come.

Tzu-Chi (OP's other RA) scheduled a baby's play group after a resident suggested the

idea to her. Now the group plans to meet more frequently to play because of the success of the activity.

In scheduling these activities, we keep a few things in mind. Is there interest within the community? Is the program educational? Fun? Is it inclusive and welcoming to residents? Does it bring people together?

One of the most encouraged criteria for successful programming is all of this **plus resident participation in implementing them**. Last month Orchard Park resident and recent doctoral degree recipient James Ketchum presented a program about his work in his area of study--sharks. Earlier, I learned from James' wife Karina about his work and knew that a lot of residents would be interested in learning from him. This type of program is what our complex supervisor Sue Franck calls "the whole enchilada," not only because it was educational, fun

and inclusive, but we got to meet and know the presenter which brought our community closer. (Thank you, James, for the awesome program!)

If you have an idea for an activity or would like to lead one, we are here to help make that happen. If you want to lead a baking class, we will supply the ingredients. If you have an aspect of your professional studies that you'd like to share, please let us know and will we work with you to accommodate what you need to educate others about it. Language, dance, music, art, games, books, discussions--these are just a few general ideas to inspire you. We have tons of equipment and supplies, and resources for additional items to make the event memorable. Programs can be designed for any age group. We'll help set up, take down and do the promotion! **Now that's the Whole Enchilada!**

Orchard Park Garden Plots are Still Available!

Submitted by: **The Orchard Park Garden Committee**

Interested in gardening? Join your neighbors in growing fresh, organic produce right here at Orchard Park! From now until March, you can rent a full 50' x 10' plot for \$20 or a 25' x 10' half plot for \$15 (plus a one-

time refundable \$20 cleanup deposit). You'll have access to garden tools to get you started. Grow onions, carrots, chard and more! The gardens are located at the southwest corner of Orchard Park, near the bike path that

crosses Hwy 113. Contact us for a garden tour or more information at **orchardparkgardens@gmail.com**.

Monthly Maintenance Tips

By Orchard and Solano Park Maintenance

FLOORS: Keep them nice and free from stains, scratches, and holes.

Some suggestions:

- Make sure all furniture has glides (the nylon or plastic pieces on the bottom of the legs that help keep the floor

from getting scratched). Chairs, tables, and bed posts are especially important.

- Don't drag heavy objects across the floor. Be sure to pick up heavy objects when moving them.
- Wipe up water and

- other spills right way.
- Be sure the underside of your washing machine doesn't have sharp exposed metal. Also, make sure that each load of laundry is balanced so that the washing machine doesn't "dance" when spinning.

Holidays and Anniversaries

September 1 - Birth of Cheng Cheng-Kung [China, Taiwan]

Celebrated seventeenth century Ming loyalist who devoted his life to overthrowing the Ch'ing government in China. He fled to Taiwan to establish a base for his struggle and during his short life made significant contributions to the island's development. In 1661, he and his troops arrived at Chin Kan City and liberated Taiwan from the Dutch. (1624)

September 3 - Frederick Douglass escapes slavery [U.S.A.]

Dressed as a sailor and carrying identification papers borrowed from a retired merchant seaman, Frederick Douglass boarded a train in Baltimore, Maryland, a slave state. Douglass rode to Wilmington, Delaware, where he caught a steamboat to the free city of Philadelphia. He then transferred to a train headed for New York City, where he entered the protection of the underground railway network. Douglass later became a great orator and one

of the leaders of the antislavery struggle. (1838)

September 16 - Palestinian Massacre [1982]

Christian militiamen called Phalangists entered Sabra and Shatila, two Palestinian refugee camps in West Beirut, where they opened fire. Phalangists had demanded the blood of Palestinians since the assassination of their president, Bashir Gemayel, on September 14. Massacre survivors said they had not seen Israeli forces inside the camp; however, they claimed Israelis sealed off boundaries to the camps and allowed Christian militiamen to enter.

September 20 - "Battle of the Sexes" [U.S.A.]

Billie Jean King defeats Bobby Riggs in a nationally televised tennis match, termed the "Battle of the Sexes," in three straight sets. (1973)

September 28 - Teacher's Day, Birth of Confucius [Taiwan]

The birthday of Kung Fu Zi

(Confucius, 551-479 BCE) is celebrated with a dawn ceremony, parts of which date back nearly 3,000 years, at temples around the island. The ceremony includes a ritual dance, costumes, music, and other rites. The teachings of Kung Fu Zi are not a religion, but a guide to appropriate personal behavior and good government, stressing the virtues of self-discipline and generosity. Confucius held the radical view that all who possessed the depth and desire to learn, not just the aristocracy, deserved the opportunity of formal education; for this reason, his birthday, a national holiday, is celebrated as Teacher's Day.

September 30 - James Meredith becomes the first Black student at University of Mississippi

3,000 federal troops were required to quell riots against his admission. (1962)

Did you know?

➤ **Registration Reminder ~** Student Housing requires all students to meet our eligibility requirements to continue living in The Parks Apartments. **Students must have full-time registered status during fall, winter and spring quarters/semesters. Full-time status is defined at 12 units for quarter students and 10 units for semester students.** Students who do not meet the requirement are required to register for additional classes or submit notice to move out. Please be aware of these requirements when you register for fall, winter and spring quarters in the coming months. Please contact your Park Office if you have any

questions.
➤ Remember to renew your parking permit(s) before October 1, 2010. If not renewed, you may receive a parking citation for an expired permit.
➤ Planning to vacate? Remember a 42-day notice is required.
➤ **Incoming packages ~** The Park Offices do not accept packages. We don't have space and security for them. Perhaps a neighbor could be designated to accept a package for you, or you might indicate your balcony or patio for drop-offs.
➤ **LARGE ITEM DUMPING ~** There has been a trend of leaving large items behind, in the hopes that they will be re-seized by members of the community. Unfortunately,

usually this **is not the** case, and our dumpster areas can overflow with unwanted items. As a result, if any personal items are left at the dumpsters upon vacate, you will be billed for the full cost of removal/dumping.
➤ Whether you are moving in or moving out, please do not park your vehicle in the perimeter (interior/walkways) of The Parks. It places children at risk and is against campus vehicle code. Vehicles in the interior of the complex will be cited and/or towed by University Police.
➤ We want our complexes to remain safe places to live. Report any suspicious activity to Campus Police.
