Fun Facts

UC Davis just recently adopted the Aggies Act, a new protocol that prioritizes the health and safety of our campus. Aggies Act influences the campus conduct system, similar to the way the California Assembly Bill 1999 eliminates legal repercussions for underage drinkers. Both the California AB-1999 and Aggies Act seeks to remove the fear of getting into trouble when seeking medical assistance for someone who may be overdosing on alcohol or other drugs.

Sustainability

Take the #MyLastFork pledge!
Did you know that over 40 billion disposable plastic utensils are used every year in the U.S.? Most times they are used only for a couple minutes, but can spend decades sitting in a landfill. Compostable utensils also utilize valuable resources to be manufactured, but are only used once before being disposed of. Take action to reduce your use of single-use utensils, both plastics and compostables. By saying yes to reusable, your everyday actions will make a world of a difference!

Ready to switch to reusables? Take the pledge! Visit tiny.cc/mylastfork
Simple steps to make it #MyLastFork:
- Refuse disposable utensils when ordering take-out.
- Invest in a reusable utensil kit to use instead of disposables. Keep it in your backpack with you to use on the go!
- Sort your waste. Most plastic utensils aren’t recyclable and should be put in the landfill. Put compostable utensils in the compost bin.
