- B. A request for contract cancellation will be considered only when a condition exists that originated after the Residence Halls Contract was signed. Please note that financial hardship, religious practices, desire to live off-campus and roommate conflicts do not automatically warrant release from the contract. Information regarding the contract release policy and procedure is available online at <https://housing.ucdavis.edu/how-to-apply/cancel-a-contract-or-lease/>.
- C. **Rate Proration.** A prorated adjustment of the quarterly room and meal plan rate will be made **only** if Student Housing and Dining Services receives written notification from the Student of their cancellation of this contract except in the last two weeks of the quarter. **Whether or not a Student takes occupancy**, the prorated adjustment of the quarterly room and meal plan rate is based upon the date Student Housing and Dining Services provides written confirmation of the contract cancellation.

A student who does not fulfill payment of their housing fees will have HOLDS placed on their registration status until payment is received. Abandonment of the room with or without written notification from the Student does not relieve the Student of any other liabilities hereunder. The meal plan rate for the quarter will be prorated and cancelled based on the last date of use of the meal plan or the date the Student abandons the room, whichever comes later.
- E. **Financial Aid.** If the Student has received loans and/or grants associated with a federal source account for the payment of campus-based housing, and has cancelled the housing contract for one of the reasons listed above, any refund due to the Student may be used as payment for said loans and/or grants.

13. CONDUCT. As a member of a Residence Hall community, residents are expected to be considerate of the personal rights of all community members. High-density living requires personal freedom be exercised in a manner that does not restrict the freedom of others.

- A. Student agrees to comply with all Student Housing and Dining Services policies, including those specifically related to conduct and behavior, as well as policies applicable to all University students, as specified in the UC Policies Applying to Campus Activities, Organizations, and Students, the UC Davis Policy and Procedure Manual, and the UC Davis Policy on Student Conduct and Discipline. Furthermore, Student understands they are responsible for the activities and behavior of their guests.

- B. Student understands that a violation of Student Housing and Dining Services policy, or other policies referenced herein, may be considered a breach of this contract. The University may terminate this contract and/or exclude Student from entering into future contracts if Student demonstrates an ongoing inability to abide by the requirements and expectations for group living, or engages in conduct that is detrimental to the welfare of residents, employees or physical properties of the University. The University may also restrict the Student from being present in certain Student Housing and Dining Services areas.
- C. Student Housing and Dining Services conduct policies are reviewed with residents during floor meetings, which are held when the Residence Halls open in Fall quarter. Attendance at these meetings is mandatory for all residents.
- D. Residents with a vacancy within their room, suite, or apartment must be prepared to have a new roommate at any time. Residents are expected to be welcoming to prospective new roommates and should not discourage others from occupying a space. Students that discourage others from moving into vacant spaces may be relocated to a new room and/or referred for disciplinary action. Residents should not homestead the room, which includes spreading their belongings throughout the room and using furniture designated for the new resident. Residents found to be homesteading will be billed for costs required to make the contracted space available to a new resident.
14. **PETS AND ANIMALS.** Unauthorized animals are not permitted in the Residence Halls for any period of time. Authorized animals include service animals, Student Housing and Dining Services approved emotional support animals, and fish kept in an aquarium/tank no larger than 10 gallons (with roommate(s) approval).
15. **CARE OF STUDENT ROOMS.** The Student agrees to care for their Residence Hall space and to keep their room and unit common areas in a clean and habitable condition. The Student also agrees to report damages and/or items requiring maintenance promptly. Any Student who does not exercise their responsibility for private and/or common areas and whose actions result in damage to the property may be required to vacate the Residence Halls and pay for the damages. Damages in unit common areas are the financial responsibility of all residents assigned to the unit and cost are split equally between residents unless responsible parties can be determined.
- A. **Mold.** Mold occurs naturally in the environment and there currently exist no federal or state standards for permissible levels of mold. Students are required to take steps to control the growth of mold and mildew by keeping the premises clean and well ventilated, particularly when showering, bathing, or washing dishes or clothes. Student agrees to notify the Student Housing and Dining Services promptly about the existence of visible mold or mildew, or water leakage or overflow in or about the premises.
Learn more by reviewing the "[Information on Dampness and Mold for Renters in California](#)" booklet that comes from the state Department of Public Health.
- B. **Furniture.** Bedroom furniture must remain in the Students room and common area furniture must remain in the common area. Reasonable care of the rooms and common areas assures a more livable Residence Hall.
- C. **Fire Safety.** Rooms may be decorated; however, decorations must comply with safety regulations. Torchiere halogen lamps are prohibited as is hanging anything from a ceiling sprinkler or any other type of fire suppression equipment. Large wall hangings, such as tapestry or large posters, must be treated with flame retardant.
- D. **Bed Bugs:** UC Davis takes a proactive approach in addressing the issue of all types of household pests, including bed bugs. It is our goal to maintain the highest quality living environment for our residents. Student Housing and Dining Services has no prior knowledge of a bed bug infestation or has professionally treated the room for bed bugs. Any Student who suspects they may have bedbugs in their room is required to notify their Area Service Desk to report the problem immediately. An inspection will be scheduled, and treatment will be done if bed bugs are present. Students may be temporarily transferred to another space while their room is being treated and re-inspected. Students will be asked to leave all belongings in the room for treatment while they are relocated. Resident owned belongings that are found to have bed bugs must be permanently removed or treated and re-inspected by a trained professional before being returned to the room.
- i. **Information about Bed Bugs | Bed bug Appearance:** Bed bugs have six legs. Adult bed bugs have flat bodies about 1/4 of an inch in length. Their color can vary from red and brown to copper colored. Young bed bugs are very small. Their bodies are about 1/16 of an inch in length. They have almost no color. When a bed bug feeds, its body swells, may lengthen, and becomes bright red, sometimes making it

appear to be a different insect. Bed bugs do not fly. They can either crawl or be carried from place to place on objects, people, or animals. Bed bugs can be hard to find and identify because they are tiny and try to stay hidden. | Life Cycle and Reproduction: An average bed bug lives for about 10 months. Female bed bugs lay one to five eggs per day. Bed bugs grow to full adulthood in about 21 days. | Bed bugs can survive for months without feeding. | Bed bug Bites: Because bed bugs usually feed at night, most people are bitten in their sleep and do not realize they were bitten. A person's reaction to insect bites is an immune response and so varies from person to person. Sometimes the red welts caused by the bites will not be noticed until many days after a person was bitten, if at all.

- a. Common signs and symptoms of a possible bed bug infestation:
 - a. Small red to reddish brown fecal spots on mattresses, box springs, bed frames, mattresses, linens, upholstery, or walls.
 - b. Molted bed bug skins, white, sticky eggs, or empty eggshells.
 - c. Very heavily infested areas may have a characteristically sweet odor.
 - d. Red, itchy bite marks, especially on the legs, arms, and other body parts exposed while sleeping. However, some people do not show bed bug lesions on their bodies even though bed bugs may have fed on them.
- b. For more information, see the Internet Web sites of the United States Environmental Protection Agency and the National Pest Management Association.

The Contract makes reference to the following publications. The policies and regulations defined in these publications, which are incorporated herein by reference, govern all University students, as well as all state and federal laws. The Student and their guests shall obey the terms, rules, policies, and regulations governing the Residence Halls, as they currently exist and as they may be amended in the future.
