

Policy Related to Defining On-Campus Residential Outdoor Areas

In order to preserve privacy and to promote the use and enjoyment of the residential areas for students living in on-campus housing, the outdoor areas surrounding on-campus student residential facilities are non-public areas.

The residential outdoor areas are those areas that surround the housing facilities, as indicated on the maps in this document.

No person may distribute literature or solicit in the Residential Outdoor Areas except Registered Student Organizations (RSO) that have an approved reservation. RSOs should submit requests for reservations to the Student Housing Office for approval.
